No. 235.—The following notification of the Government of India is republished:—

HOME DEPARTMENT.

PERMISSIONS.

Bombay, the 26th July 1925.

No. P. 537.—The following communication of the Secretary of State, dated the 26th July 1925, is published for general information:—

The Secretary of State for India in Council has decided, in consultation with the Government of India, to make the following modifications in the orders contained in the Resolution of the Government of India of November 1924, relating to the conditions and terms upon which officers of the Indian Services may retire prematurely if they desire to do so in view of the change in the conditions of their employment brought about by the introduction of constitutional reforms.

1. The orders in question at present give authority of the Ruler to which they relate who agreed to India for the first time on a date antecedent to January the 1st, 1925, an option of retiring which expires on March the 31st, 1926. The Secretary of State in Council has decided that the option, instead of expiring on March the 31st, 1926, shall continue in force and may be exercised until the action proposed to be taken on the Report of the Parliamentary Commission provided for by the Government of India Act is known, when the whole position will necessarily be revised.

2. It follows from the decision that the conditions that were taken in anticipation of retirement must be modified before March the 31st, 1926, is also amended. Officers proposing to retire prematurely, provided they have submitted a definite application, for permission to retire accompanied by the prescribed form of declaration, will not be allowed before their retirement takes effect to avail themselves of the full amount of leave which is due to them, and which may be granted to them at one time under the regulations for the time being in force and applicable to them otherwise than on retirement. A mere intention of a possible intention to retire will not entitle an officer to have his application for leave dealt with under these rules.

An officer who has submitted an application for retirement accompanied by a declaration and has obtained leave in the form of a will not be permitted to exceed his application and to retire to duty without the sanction of his local Government.

An officer on leave will be at liberty to submit an application to retire with the prescribed declaration and will then, unless his local Government considers his return necessary, be placed in the next position as an officer who has submitted his application in India.

3. The following form of declaration is substituted for that required by the present rules:—

"I in view of the change in the conditions of my service occasioned by the Government of India Act, 1925, I desire to retire on the terms set forth in the orders relating to premature retirement."

4. The Secretary of State in Council is prepared to permit officers retiring prematurely to take up other employment during the currency of their leave preliminary to such retirement, subject to the following conditions:—

(a) that if the proposed employment lies in India the specific consent of the Government-General in Council shall be obtained, and that if the proposed employment lies elsewhere than in India, the specific consent of the Secretary of State in Council shall be obtained; and

(b) that a request for such permission must be accompanied by a definite request for permission to retire at the expiry of the leave.

The Government-General in Council or the Secretary of State in Council, as the case may be, will ordinarily grant permission to take up employment in these circumstances when they consider the employment under consideration is such as could not with propriety be held by a person who is still in the service of the Crown in India, or alternatively they may grant the desired permission in one such case subject to the stipulation that the acceptance of the employment in question will preclude the officer from withdrawing his request to retire and from returning to duty in India.

Even in cases where the stipulation above mentioned has not been made an officer who has been granted permission to take up such employment will not be permitted to withdraw his request for permission to retire and to return to duty in India without the specific consent of the Secretary of State in Council which will be given only when the Government of India and the local Government agree which the officer was employed.

5. The Secretary of State in Council desires it to be understood that eligibility to retire on premature pension is not an absolute right which accrues an automatic and preclusive of the premature pension. The Secretary of State reserves to himself the right to exercise for a limited period under the ordinary rules on their final retirement in the case of officers who have obtained employment with the permission in other departments under the Crown or to withhold permission to retire or to permit retirement on reduced pension only, in circumstances such as both parties to the contract (vide clause 425, Civil Service Regulations). Thus it would not be open to an officer against whom disciplinary proceedings were pending or in contemplation which might result in the reduction or the withholding of his pension to avoid such proceedings by an application for permission to retire on premature pension.

6. While the Secretary of State in Council reserves to himself the right to postpone the acceptance of the resignation of officers until such time as he may see fit to make for their replacement an officer who has been granted permission to retire under these rules will only be deemed to have retired if the date on which he desires leave of his decision cannot be avoided without prejudice to his public interests. Ordinarily, the local Government under which the officer is employed will inform him forwarding his application whether it considers that the Secretary of State in Council should exercise the right reserved to himself of postponing the acceptance of his resignation and if so for what period, but the local Government must be given direction in determining with due regard to the public interest the date when leave granted under paragraph 5 will begin, even though the officer's resignation has been accepted by the Secretary of State.

7. The Secretary of State in Council intends as soon as possible to re-issue in the form of rules under section 96 (1) and (2) of the Government of India Act the rules issued on November the 26th last by the Government of India as already amended and as amended by the present Government, and he takes this opportunity of announcing that the orders applicable to officers serving in the other Provinces will apply to officers serving in Burma with effect from the date on which the contents of the Government of India Council, dated October the 7th last, concerning Burma a Governor's Province, is brought into operation.

No. P-506 L.—The following announcement by the Secretary of State, dated the 6th July 1922, is published for general information:—

In continuation of the orders issued on November the 26th, 1921, regarding the permanent retirement of officers of the Indian Service on proportionate pension the Secretary of State in Council has decided that an officer awarded a proportionate pension may be permitted to commute a portion of his pension not exceeding the third of the whole, unless in the opinion of the administering authority (the local Government under which the officer was last employed by an officer who drew his pension directly or indirectly from Indian Treasuries and the High Commissioner in all other cases) there are exceptional reasons for refusing sanction to the application in whole or in part. If the administering authority considers that such request fails, the case will be referred for the decision of the Secretary of State in Council.

2. An officer in Europe desiring to commute must make application, in writing, to the High Commissioner stating his desire to commute and furnishing information as to his age and the progress on which he bases his request. Permission to commute in whole will not voluntarily be granted by the High Commissioner to an officer making only temporary use of India. Commutation is his case will uniformly be dealt with by his authorities in India.

3. If the High Commissioner approves the commutation, the officer will be so informed, and his application will be referred to the Medical Board at the India Office.

4. The Board will require the officer to give such information as to his health and habits as is required in the case of persons proposing to enter their first or successive commissions, and he will be required to attend in person for personal examination by the Board at the India Office.

5. An officer residing in a Dominion or Colony (other than those whose accounts are adjusted directly with Indian Treasuries) and desiring to commute will be required to follow a procedure similar to that in the case of an officer residing in Europe except that he will apply to the High Commissioner through the official from whom he draws his pension. If the application is approved the officer will be informed accordingly, and a special staff medical board will be constituted under the orders of the Local Colonial Government.

The Medical Board will report in the following form:—

"We have carefully examined and are of opinion that he is (or is not) in good bodily health, and has (or has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to regularize a portion of his pension."

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following should be added:— "and as he is suffering from."

No age for purposes of commutation should be taken to his years."

6. The basis of commutation, subject to an addition of years of age in the case of impaired lives, shall be the following table, the age of the officer being understood at the age he will attain on the birthday next succeeding the date upon which the official sum will become payable:—

| Age next birthday | Number of years' pension | Present value of the annuity of £100 | Age next birthday | Number of years' pension | Present value of the annuity of £100 |

Note 1.—These values are subject to such duties by the Secretary of State in Council from time to time.

Note 2.—It will arise to some persons at the rate at which the age is increased that the value of the annuity should reach the High Commissioner's office at least one month before the age next birthday. This age is the age at which the annuity will become payable.

7. When the commutation has been sanctioned by the High Commissioner, the applicant will be informed accordingly, and will have the option of withdrawing his application within one week after receiving notice.

8. If the applicant does not withdraw his application within that period, the decision will be considered final, and the commutation of pension will become absolute, and payment will be made forthwith, the payment of the commuted pension thereupon ceasing.

9. The capitalised sum will be payable in India if the commutation is effected there; in all other cases it will be payable in England. When commutation of a standing pension is effected in India by officers serving temporarily in that country the commutation will be on the basis of the current rate of exchange, the rate adopted being the rate of exchange for telegraphic transfers from Calcutta on London on the 15th of the month preceding that in which the capitalised sum is paid.

10. The commutation of the proportionate pension of an officer who draws his pension directly or indirectly from Indian Treasuries will be governed by rules which the Government of India are issuing separately.

No. F-506-17.—With reference to rule 18 of the rules contained in the announcement of the Secretary of State which was published in the *Delhi Gazette* of the Government of India in this Department No. F-506-17, dated the 10th July 1922, the rules governing the commutation of the proportionate pension of pensioners who draw their pensions directly or indirectly from Indian Treasuries are herewith published for general information. The table for the construction of pensioners differs from the table in the Secretary of State's announcement because of the necessity of including in upon the basis of a table applicable to Indian instead of English conditions.

1. These rules apply only to pensioners drawing pensions directly or indirectly from Indian Treasuries. Other pensioners should apply to the India Office, when their applications will be considered on their merits.

Note.—The expression "drawing their pensions directly from Indian Treasuries" refers to cases of pensioners residing in India, the British Colonies or the East African Provinces and drawing their pensions from the local treasuries, the service being subsequently adjusted in the hands of the Home Office (India), United Kingdom.

2. Subject to the conditions stated in these rules, the local Governments are competent to sanction the commutation for a lump payment of a portion not exceeding one-third of the pension which has been or is about to be granted to any pensioner.

3. An application for commutation submitted through an authority having power under the *Mutual Pensions* is subject to a sanction may be withdrawn by such authority, if satisfied that it is not a case in which commutation should be allowed. The applicant's right of appeal will be regulated by the *Mutual Pensions*.

4. In cases in which an applicant bases his request on circumstances which can only be verified by an authority other than the authority competent under rule 2 to sanction the commutation, the request should not be granted until the verification has been made.

5. The incidence of the commutation payment will in all cases follow that of the pension, and the commuted amount must be made payable at the treasury at which the pension is being or is to be drawn. If a pensioner who has obtained commutation of a portion of his pension transfers himself thereafter to another province, a note must be made on the Pension Payment Order as to the amount of pension which has been commuted.

6. Application for commutation shall be made in Form A appended to these rules.

7. The sanctioning authority shall satisfy itself—

(1) That the commutation will be to the benefit and permanent advantage of the pensioner or his family;

(2) That the residue of pension which will be left after commutation is sufficient to maintain the pensioner in accordance with his status in life in retirement, due regard being had to the manner of application of the amount realised on commutation.

The sanctioning authority may also, at its discretion, require guarantees and deposits such sums and interests as it may deem fit to secure the prompt payment of the amount payable on commutation if sanctioned.

8. (a) If on consideration of the facts stated in the application, the sanctioning authority decides to allow commutation, the applicant should be required to produce a certificate as to his incapacity of life from a medical officer who should be of his rank standing than a Civil Surgeon, District Medical Officer or Treasury Surgeon. The sanctioning authority may further, at its discretion, require a second medical opinion or direct the applicant to appear before a Medical Board.

(b) The sanctioning authority or Board shall advise the applicant to a strict medical examination, requiring him to give such information as to his health and habits as is usual in the case of persons proposing to secure their lives in insurance companies, and will report in the following form:—

"I have carefully examined and am of opinion that he is in good bodily health and the prospect of an average duration of life.

"I therefore, on recommend compliance with his application to be allowed to capitalise a portion of his pension.

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following should be added:—

"but as he is suffering from he age, for purposes of commutation, should be taken to be years."

(c) The applicant should himself pay the medical officer's fee for examination except when a second medical opinion is required or the applicant is directed to appear before a Medical Board, in which case the Government will be made free of charge by medical officers at the request of authority indicated in rule 5.

8. The lump sum payable on commutation will be the amount awarded by the Audit Office to be admissible according to the table of present values appended to these rules. This amount may be deducted, at the discretion of the pensioning authority, by the applicant for definite acceptance or rejection, within a specified period before final sanction is communicated.

10. Commutation, when sanctioned, shall take effect from a date, to be named in the order, which should ordinarily be about six months later than the date of the order; and all calculations shall be made with reference to that date. Payment of the commuted portion of the pension will cease from the date specified and the sum payable on commutation will be paid on that date or as soon afterwards as possible.

Note.—In special cases the pensioning authority may approve the commutation with effect from an earlier date than that mentioned in the order and preceding the date of the order, all calculations being made with reference to such earlier date.

11. A commutation once applied for, sanctioned, and given effect to, cannot be rescinded, i.e., the portion of a pension commuted cannot be restored on refund of its capitalized value.

12. If a pensioner whose pension has been commuted dies on or after the date from which the commutation is to take effect under rule 10 but before he receives the commutation value, this value is payable to his heirs.

13. COMPULSORY MATHEMATICS.

The course is as follows:—

- (1) *Arithmetic*.—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)

(2) *Algebra*—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Powers, Remainder Theorem, Equations, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Simple and their applications.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

(Candidates will be provided with squared paper.)

SCHEDULE A.

Constructions of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallel to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportion.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles of a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if—

(i) a pair of alternate angles are equal, or

(ii) a pair of corresponding angles are equal, or

(iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles, then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilinear figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and the one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Theorems and a platement of the geometrical theorems corresponding to the following Algebraical identities:—

$$k(a + b + c + \dots) = ka + kb + kc + \dots$$

$$(a + b)^2 = a^2 + 2ab + b^2.$$

$$(a - b)^2 = a^2 - 2ab + b^2.$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter at a right angle is the chord; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or in the same circle), (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at its centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Properties: Similar triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right angled triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares of corresponding sides.

The Returning Officer shall first examine the votes to be counted, whether the numbers on the declaration papers and the envelopes containing the voting papers are correct. If the Returning Officer is satisfied on this point and if the declarations and statements are prima facie regular, he shall file the declaration papers and put the envelopes containing the enclosed voting papers in a separate heap.

38. When the Returning Officer is not satisfied that the declaration paper is the not sent out by him to the voter concerned or where the declaration is otherwise in not in order, he shall endorse the word "rejected" on the back of the declaration paper and keep it with the enclosed voting paper in a separate heap.

40. The Returning Officer shall endorse the word "invalid" on every voting paper that he deems invalid and where the rejection order is substantiated by any evidence or signs, give brief reasons for his order. Rejected papers shall be kept separate.

41. After the voting papers have first been opened the Returning Officer shall arrange the voting papers (other than voided papers) in parcels according to the first preferences recorded for each candidate. He shall also ascertain the total number of valid papers.

42. The Returning Officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him.

43. The Returning Officer shall then divide the total number of valid papers by a number according by the number of votes to be filled and the result obtained by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

44. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be elected.

45. (1) If the number of votes credited to an elected candidate is greater than the quota, the surplus shall be transferred, in accordance with the provision of these regulations to the remaining candidates entitled to the voting papers in the parcel of the elected candidate as being sent in order of the voters' preferences.

(2) If the votes credited to an elected candidate consist of original votes only, the Returning Officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(3) If the votes credited to an elected candidate consist of original and transferred votes or of transferred votes only, the Returning Officer shall examine the papers contained in the sub-paragraph last mentioned by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(4) In either case the Returning Officer shall make a separate sub-paragraph of the non-transferable papers and shall ascertain the number of papers in each sub-paragraph of transferable papers as it is the sub-paragraph of non-transferable papers.

(33) If the total number of papers in the sub-panels of transferable papers is equal to or less than the surplus, the Returning Officer shall transfer such sub-panel of transferable papers to the remaining candidates entitled thereto as the voters' vote preference.

(4) (a) If the total number of transferable papers is greater than the surplus, the Returning Officer shall transfer from each sub-panel the number of papers which bears the same proportion to the number of papers in the sub-panel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-panel shall be ascertained by multiplying the number of papers in the sub-panel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored. If two or more fractional parts are of equal magnitude, the fractional part shall be deemed to be the larger which arises from the larger sub-panel and if the sub-panels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(d) The portions of papers to be transferred from each sub-panel shall be those last fixed in the sub-panel.

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate for and to whom the transfer is made.

(f) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(g) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the Returning Officer shall decide which surplus he will first deal with.

(h) The Returning Officer must not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred is less than the difference between the total of the votes credited to the two remaining candidates lowest on the roll.

45. (1) If at any time a candidate has a surplus (or when under the preceding regulation any existing surplus need not be transferred) and any or more vacancies remain unfilled, the Returning Officer shall transfer from the poll the candidate credited with lowest number of votes and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-panels according to the vote preferences recorded thereon for continuing candidates, and shall transfer each sub-panel to the candidate for whom that preference is recorded.

The Returning Officer shall make a separate sub-panel of the non-transferable papers.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the Returning Officer may in his discretion exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with fewest original votes shall be excluded next, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the Returning Officer shall decide by casting lots which shall be excluded.

47. (1) Whenever any transfer is made under any of the preceding regulations, each sub-panel of papers transferred shall be added to the panel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers are not to be transferred shall be set aside as finally dealt with and the votes given therein shall be transferred and so taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions mentioned in Regulation 45 before any other candidate is excluded.

48. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled the continuing candidate shall be elected.

(2) When only one vacancy remains unfilled, the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates together with any surplus not transferred, that candidate shall be elected.

(3) When the last vacancy can be filled under this regulation, no further transfer of votes need be made.

49. The Returning Officer shall then declare the names of the candidates who have been duly elected and shall prepare a return in Form IX.

50. Any candidate or his agent may at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the Returning Officer to re-examine and recount the papers of all or any candidate (not being papers set aside at any previous transfer as finally dealt with) and the Returning Officer shall, without examination and, without the same accordingly. The Returning Officer may also at his discretion recount votes under one or more other in any case in which he is not satisfied as to the accuracy of any previous count: Provided that nothing herein shall make it obligatory on the Returning Officer to recount the same votes more than once.

51. (a) After the declaration of the result of the voting, the Returning Officer shall set up in separate packets—

(1) The counted voting papers;

(2) The rejected declaration papers and rejected voting papers;

- (b) the voting papers enclosed (sealed);

 (3) He shall also prepare and certify a return in Form VII and permit any candidate or his agent to take a copy of this return or of the return in Form IX.

FORM VII.

Form of Voting Papers.

Counted No.

Notes.—The number is to have a number to correspond with that on the voting paper.

Mark order of preference in square below.

Name of candidate.

- Ramaswami Ayyar (Chelviyil Ramaswami Ayyar, 10, Kanyas Gurdas Street, Chelviyil).
 Periyasami Nallur (Periyasami Periyasami Nallur, 10, West Main Street, Chelviyil).

Directions for the pollster of the vote.

Vote by placing the figure 1 in the square opposite the name of the candidate for whom you vote. You may also place the figure 2 in the square opposite the name of the candidate who is your second choice, and the figure 3 in the square opposite the name of the candidate who is your third choice. And so on. Crosses must not be used.

A voting paper is invalid on which—

- (a) the figure 1 is not marked; or
 (b) the figure 1 is not opposite the name of any one candidate; or
 (c) the figure 1 and some other figure is not opposite the name of the same candidate; or
 (d) any mark is placed by the voter by which his vote afterwards be identified.

He must place 1 in the square opposite the name of the candidate for whom he votes.

He may in addition place 2 in the square opposite the name of the candidate who is his second choice, and 3 in the square opposite the name of the candidate who is his third choice. And so on. Crosses must not be used.

If the voter does not place the figure 1 on his ballot paper, or places the figure 1 opposite more than one name, or places the figure 2 and some other figure opposite the same name, or places any mark on the paper by which he may afterwards be identified his ballot paper will be invalid and will not be counted.

After marking the voting paper, the voter will put the paper into the ballot box without allowing any one to see how he has voted and forthwith quits the polling station.

If the voter inadvertently spoils a voting paper, he can return it to the officer, who will, if satisfied of such inadvertence, give him another paper.

Notes.—These directions may be illustrated by examples of valid voting papers such as the following:—

Since the total number of transferable papers (2,064) exceeds the surplus (1,008), only a portion of each sub-panel can be transferred, and the number of papers to be transferred from each sub-panel must bear the same proportion to the total number of papers in the sub-panel as that which the surplus bears to the total number of transferable papers.

In other words, the number of papers to be transferred from each sub-panel is ascertained by multiplying the number of papers in the sub-panel by $\frac{1,008}{2,064}$ (the surplus), and dividing the result by 2,064 (the total number of transferable papers).

The process is as follows:—

D's sub-panel contains 327 papers, and his share of the surplus is, therefore:—

$$327 \times \frac{1,008}{2,064} = 127 \frac{1}{2}$$

E's sub-panel contains 11 papers, and his share of the surplus is, therefore:—

$$11 \times \frac{1,008}{2,064} = 5 \frac{1}{2}$$

F's sub-panel contains 28 papers, and his share of the surplus is, therefore:—

$$28 \times \frac{1,008}{2,064} = 13 \frac{1}{2}$$

G's sub-panel contains 1,108 papers, and his share of the surplus is, therefore:—

$$1,108 \times \frac{1,008}{2,064} = 536$$

$$\text{Total} \dots \dots 1,008$$

The number of papers to be transferred as determined by the preceding process contains fractions, and, since only whole papers can be transferred, so many of the lengths of these fractions, taken in order of their magnitude, as will make the total number of papers to be transferred equal to the surplus are retained as of the value of unity.

Thus, as the whole number determined above amounts to only 1,007, viz., $(127 + 5 + 13 + 536)$, or one short of the surplus 1,008, the length fraction $\frac{1,008}{2,064}$ is retained as unity, and the number of papers to be transferred are as follows:—

| | | | |
|--------------|-------------|-----------------------------|------------|
| To D | 128 papers. | To F | 14 papers. |
| To E | 6 .. | To G | 535 .. |
| | | Total, being A's surplus .. | 1,008 .. |

The particular papers to be transferred to D, E, F and G, are those last listed in their respective sub-panels, and, therefore, at the top of the sub-panels. The papers to be transferred are so marked so as to indicate the candidate from and to whom the transfer is made.

These papers are added in separate sub-panels of D, E, F and G.

The totals of the votes credited to these candidates thus become:—

| Total. | | Total. | |
|-----------|-----------------|-----------|-----------------|
| D | 758 + 128 = 886 | F | 361 + 14 = 375 |
| E | 403 + 6 = 409 | G | 137 + 535 = 672 |

The remainder of the papers in the sub-panels, (i.e., those papers not transferred), together with the papers on which no further available preference was marked, are collected together and form of the one parcel, representing A's quota of votes (1,001), and these papers are set aside as finally dealt with. The parcel is made up as follows:—

| | |
|--|-------|
| The remainder of D's sub-panel, 327 less 128 = | 199 |
| The remainder of E's sub-panel, 11 less 6 = | 5 |
| The remainder of F's sub-panel, 28 less 14 = | 14 |
| The remainder of G's sub-panel, 1,108 less 535 = | 573 |
| Non-transferable papers | 5 |
| Total, being A's quota | 1,001 |

The operations involved in this transfer are summarized in the following table:—

| TRANSFER OF A'S SURPLUS. | | | | | | | |
|---|----------------------------|---------------------------------------|--|---|----------------------------|-------------------------------|--|
| Surplus | 1,008 | Number of transferable papers | 2,064 | Proportion to be transferred | 1,008 | Surplus | 1,001 |

| Name of candidate receiving the available preference. | Number of original papers. | Number of papers transferred. | Number of papers retained for A's quota. | Name of candidate receiving the available preference. | Number of original papers. | Number of papers transferred. | Number of papers retained for A's quota. |
| A | 2,064 | 199 | 1,865 | A | 2,064 | 1,001 | 1,063 |
| B | 31 | 6 | 25 | B | 31 | 6 | 25 |

| Total | 2,064 | 1,001 | 1,063 | Total | 2,064 | 1,001 | 1,063 |

The state of the poll on the conclusion of the transfer is as follows:—

| A. Votes. | | Value | | F. Votes. | | K. Votes. | |
|-----------|----------------|---------|-----|-----------|------|-----------|-------|
| .. | 1,601 elected. | G | 918 | .. | 308 | .. | 51. |
| Q .. | 1,419 | D | 876 | H .. | 185. | .. | — |
| B .. | 393 | E | 499 | I .. | 119 | Total .. | 6,680 |

If now has 1,601 votes, a number which is more than the quota. He is accordingly declared elected.

Second Transfer.

G's surplus (7,098 less 1,601, or 549) would have to be transferred were it not for the provision of Regulation 45 (3) (b). Under the latter rule the returning officer need not transfer a surplus which is less than the difference between the two lowest candidates on the poll, and where, therefore, the transfer would not alter the relative position of these two candidates, even if the whole surplus were transferred to the lowest candidate. In this case the difference between I and K, the two lowest candidates, is 28 (119 less 91), and therefore G's surplus need not be transferred.

The returning officer proceeds to distribute the papers of the candidate with the smallest total of votes.

K's parcel of 51 papers is therefore examined. It is found to contain 59 papers on which F is the next preference, and 4 on which G is the next preference.

Therefore 59 papers are transferred to F and 4 to G.

The poll now stands as follows:—

| A. Votes. | | Value | | F. Votes. | | K. Votes. | |
|-----------|----------------|---------|-----|-----------|-----|-----------|-------|
| .. | 1,601 elected. | G | 918 | .. | 444 | .. | — |
| Q .. | 1,604 | D | 876 | H .. | 185 | .. | — |
| B .. | 393 | E | 499 | I .. | 119 | Total .. | 6,680 |

Third Transfer.

The poll shows that as a result of the second transfer no further candidate obtained the quota which would entitle him to election, and the next question has to be determined next.

The difference between I and H (185 less 119, i.e., 66) exceeds G's surplus (59), which, therefore, is still allowed to remain untransferred [Regulation 45 (3) (b)].

Candidate I is lowest on the poll and his papers have to be distributed in the same manner as K's [Rule 45 (3)]. But as the combined votes of H and I together with G's surplus (185 + 119 + 59 = 363) are less than 414, the total of F, the next highest candidate, the returning officer must himself of Regulation 45 (3), and distribute the papers of both H and I in one apportion.

The papers (185 + 119, or 304 in all) in the parcels of H and I are examined in one apportion, and it is found that—

| H is marked next preference as | | | | Papers. | |
|--------------------------------|-------|-------|-------|---------|--|
| D is marked next preference as | | | | 119 | |
| Non-transferable papers | | | | 307 | |
| | | | | 44 | |
| Total .. | | | | 466 | |

It should be stated that on some papers some or none of the candidates A, G, I, H and K may have been marked against in order of preference on the papers examined, but, as all these candidates are already either elected or excluded, any papers so marked pass to those of the other candidates for whom the next available preference has been recorded.

The operation is completed by the transfer of 119 papers to H, and 187 (307) whilst the 44 non-transferable papers are set aside as finally dealt with [Regulation 45 (3)].

The poll now stands as follows:—

| A. Votes. | | Value | | F. Votes. | | K. Votes. | |
|-----------|----------------|---------|-----|-------------------------|-------|-----------|---|
| .. | 1,601 elected. | D | 876 | .. | 444 | .. | — |
| Q .. | 1,604 | E | 499 | Non-transferable papers | .. | 44 | |
| B .. | 1,671 | | | Total .. | 6,680 | | |

B now has 1,671 votes, a number which exceeds the quota. He is accordingly declared elected.

Fourth Transfer.

B's surplus (10) exceeds the difference (66) between E and F, the two candidates lowest on the poll, and it is, therefore, necessary to distribute it.

For this purpose, only one parcel of papers has transferred, containing 119 papers is taken into account.

There are examined and arranged in sub-panels in the same manner as A's papers were examined and arranged with the following result:—

A next preference is shown for E on 54 papers.

No further preference is shown on 25 papers.

The total number of transferable papers (84) is thus greater than the surplus (10), and the surplus is to be transferred in 10. But there is only one candidate, E, entitled to participate in the election. E accordingly receives the whole of the surplus, and the 25 papers not listed in E's list are therefore transferred to him, after being marked so as to indicate their transfer from

The remainder of the papers in E's sub-panel, together with the non-transferable papers are placed with the original panel. The whole constitutes B's quota, and these papers are set aside as finally dealt with [Regulation 47 (1)].

B's quota is made up as follows:—

| | | | | | | |
|----------------------------|----|----|----|----|----|-------|
| Original panel | .. | .. | .. | .. | .. | 895 |
| Remainder of E's sub-panel | .. | .. | .. | .. | .. | 34 |
| Non-transferable papers | .. | .. | .. | .. | .. | 35 |
| | | | | | | Total |
| | | | | | | 1,000 |

The poll now stands as follows:—

| Vote. | | Vote. | | Vote. | |
|-------|----|----------------|---|-------|-------|
| A | .. | 1,001 elected. | D | .. | .. |
| B | .. | 1,016 | E | .. | .. |
| C | .. | 1,001 | F | .. | .. |
| | | Total | | | Total |
| | | 3,018 | | | 3,018 |

Fifth Transfer.

No candidate is elected as the result of the transfer, and the next operation has to be discontinued.

C's surplus is still not distributable, being smaller than the difference between the totals of E and F, the two lowest candidates [Regulation 48 (4)].

F is lowest and his papers have to be distributed.

On examination it is found that F's 444 papers, 218 show a vote preference for C, and the remainder, 226, require no further preference.

The operation is completed by the transfer of 226 papers to C, whilst the 218 non-transferable papers are set aside as finally dealt with [Regulation 47 (1)].

The poll now stands as follows:—

| Vote. | | Vote. | | Vote. | |
|-------|----|----------------|---|-------|-------|
| A | .. | 1,001 elected. | D | .. | .. |
| B | .. | 1,016 | E | .. | .. |

(1) If, owing to there being more candidates than there are electors, a poll has to be taken, the Returning Officer shall appoint hitherto one or more polling officers for each polling station and may pay them reasonable remuneration for their services. The Returning Officer may also, if necessary, appoint one or more identifying officers to assist the polling officers in identifying the voters. Polling officers shall neither be members for the district for which the poll is to be taken nor registered voters therein.

(2) If, after the taking of a poll has become necessary under sub-rule (1), the number of validly nominated candidates becomes, owing to the death of a candidate or candidates before the poll is taken, equal to or less than the number of electors, election proceedings shall be started afresh and the timetable prescribed in rule 20 is to be repeated.

23. (1) The polling officers shall keep order at the station, shall see that the election is fairly conducted, shall require the number of electors to be admitted at one time, and shall exclude all persons except his own clerks, the candidates or agents when the candidates may have appointed in writing to appear in their stead at the polling station, the Police on duty, and such persons as may be admitted for the purpose of identifying the electors.

(2) The letter of a candidate appointing an agent to represent him at the polling station shall be sent on to reach the polling officer before the voting commences.

24. The ballot box shall be so constructed that the ballot paper can be introduced therein but cannot be withdrawn therefrom without the box being unlocked. Just before the commencement of the poll the polling officer shall show the ballot box empty to each person as may be present at the polling station and shall then lock it up and place a seal upon it in such manner as to prevent its being opened without breaking such seal and place it in his own care for the receipt of ballot papers and shall keep it so locked and sealed. The key of the ballot box shall also be placed under seal.

25. The Returning Officer shall provide for each polling officer such number of clerks as he may consider desirable and shall supply him with a copy of the electoral roll, a list of the electors, ballot papers and boxes, and such other papers, stationery and forms as may be necessary.

26. Every ballot paper shall be in Form XV and shall have the names of the candidates printed on it in alphabetical order. If there are two candidates of the same name, they shall be distinguished by the addition of their competition or in some other suitable way.

27. (1) The names of every person presenting himself to vote and his number on the electoral roll shall be entered in a signature slip maintained in Form XVI, and the voter shall sign it, if he is literate, sign his name in the column provided for that purpose, or, if he is illiterate, shall fix his thumb-impression therein.

(2) The voter shall present his slip to the polling officer who, after satisfying himself that it has been duly signed by the voter or impressed with his thumb mark, shall file it; provided that the polling officer may, if any doubt as to the validity of the signature of the voter, require that the slip be countersigned by any person present who can identify the voter. If there is no such person present, the polling officer shall vote as the slip the fact that the voter's identity has been questioned.

(3) Agents, friends and all persons shall be permitted to receive votes who observe the proxy system in accordance with the regulations framed by the district board in that behalf.

28. Immediately before a ballot paper—that is the enclosed of Form XV—is handed over to the voter, the polling officer shall:

- (a) unfold it on the back;
- (b) enter the voter's number in the electoral roll or the corresponding counterroll of Form XV; and
- (c) affix his initials against the voter's name in the electoral roll.

The polling officer shall then tell the voter how many votes may be given and shall give him the ballot paper.

29. The voter on receiving the ballot paper shall forthwith proceed to the place set apart for the purpose and there mark a cross against the names of the candidates or candidates for whom he intends to vote. He shall then fold up the ballot paper so as to conceal his vote and put it into the ballot box.

30. (1) If the voter is unable to read the ballot paper or to make a cross thereon, and applies for assistance in doing so, the polling officer shall read it for him, and, if so required, mark in the presence of the candidate or their agents, if any, the ballot paper according to the directions of the voter and give it to him to put in the ballot box.

(2) In the case of every voter whose ballot paper is marked in this manner by the polling officer, a note shall be made on the corresponding counterroll of Form XV by the polling officer of the reason why it was so marked.

(3) The marking of a ballot paper by the polling officer under clause (1) shall not be questioned subsequently on the ground that it was not in accordance with the voter's directions.

31. (1) Any ballot paper which is not duly marked or on which votes are given in more than one place or in more than one column or on which any mark is made by which the votes may afterwards be identified, shall be invalid.

(2) If more than one cross be placed against any candidate's name, they shall count only as one vote in his favor, provided that the voter has not placed crosses against more one before than there are members to be elected.

(3) If the name or any one of the names is so placed as to render it doubtful for which candidate such mark is intended to apply, the vote is void, but not the whole ballot paper in the case where more than one vote may be given on the same ballot paper, shall be invalid, provided again that the voter has not placed marks against more candidates than there are members to be elected.

72. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the polling officer may ask, be entitled to mark the ballot paper in the same manner as any other voter. The ballot paper printed in these rules is a numbered ballot paper; still, instead of being put into the ballot box, is given to the polling officer, and endorsed by him with the name of the voter and the number on the electoral roll and set aside in a separate packet with the name of the voter and the number on the electoral roll and set aside in a separate packet with the name of the voter and the number on the electoral roll. The signature or thumb impression of the voter concerned shall be taken as signature slips in Form XVI, but should be attached to their numbered numbered ballot papers and separately filed.

73. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot be conveniently used as a ballot paper may, on delivering it to the polling officer and enclosing him of the inadvertence, obtain another ballot paper in place of the spoiled one, the latter one together with its numbered being marked as cancelled.

74. Immediately after the close of the poll, the polling officer shall, in the presence of the candidates or their agents, make up into separate packets and seal with his own seal and the seal of each candidate or their agents as may desire to affix their seal—

- (1) each ballot box in use at his station unopened;
- (2) the keys of such boxes;
- (3) the sealed and spoilt ballot papers, both ordinary and numbered, with their counterfoils;
- (4) the numbered ballot papers with the signature slips attached to them;
- (5) the marked copies of the electoral roll and the counterfoils of ballot papers; and
- (6) the file of signature slips.

75. The packets shall be forwarded at once by the polling officer to the Returning Officer accompanied by a statement in Form XVII. Each packet shall be numbered and shall have a note as to its contents.

76. On the day and at the hour appointed for the counting of votes, and in the presence of each candidate or their agents as may be, the Returning Officer shall proceed as follows—

(a) The ballot box or boxes relating to each polling station shall be opened and after another, the Returning Officer shall take out the papers therefrom, count them or have them to be counted, and record the number thereof in a statement in Form XVIII.

(b) The Returning Officer shall then mix together the whole of the ballot papers of all the ballot boxes. The enumeration and counting of the votes will then commence. The Returning Officer shall, as every ballot paper which is wholly or partially rejected, endorse the word "Rejected." If any candidate or agent presents questions the correctness of his respective order, he shall also record as the ballot paper the grounds of rejection briefly.

(c) The Returning Officer shall, as far as practicable, proceed simultaneously with the counting of the votes, and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seal of each candidate or their agents as may desire to affix them; and adequate precautions shall be taken for their custody.

77. (a) After the Returning Officer has completed the counting and counting is shall prepare a return of the results of the polling in Form XIX, and, after verifying the total of the votes with the figures in Form XVII and XVIII shall, subject to the provisions of rule 83, declare the election of the candidate or candidates to whom most valid votes have been given.

(b) Any candidate or his agent shall, on application, be permitted to take a copy or an extract from the return in Form XIX.

78. The Returning Officer shall not open the sealed packets containing the numbered ballot papers and their numbered signature slips or the marked copies of the electoral roll.

79. Upon the completion of the counting and the declaration of the results, the Returning Officer shall make up in separate packets—

- (1) the ballot papers, all or some of the votes on which have been counted, and
 - (2) the ballot papers, all the votes on which have been rejected,
- and shall mark on each packet the number of papers it contains. A note shall be made giving a description of the contents of each packet and the station in which it remains.

Disposal of ballot papers.

80. (1) The Returning Officer shall, after declaring the result, forward a copy of the return to the president of the district board so also the packets of ballot papers, whether counted, rejected or numbered, and of the counterfoils thereof. These packets shall not be opened and their contents shall not be inspected or produced except under the orders of a competent court.

(2) The president shall retain the packets for a year and shall then, unless otherwise directed by the order of a competent court, cause them to be destroyed. The marked copies of the electoral roll shall be preserved for three years.

General.

81. (1) If any person has been elected for more than one term, he shall, within 24 hours from the date of the last of such elections, inform the president the mode for which he chooses to serve.

(2) In default of such information the president shall select the mode for which such person shall serve.

(3) The said person shall be deemed to have been elected for the vicin or chieft or notified as the case may be; and throughout the terms of the other clause for which such person has been elected shall proceed to elect a member in the manner hereinafter provided.

32. If there is an equality of votes between any two or more candidates, the president shall, after notice to the candidates concerned, decide by drawing lots which candidate or candidates shall be deemed to have been elected.

33. The names of the candidate or candidates duly elected shall be published on the notice board of the District Board.

34. A candidate who has been duly elected may submit his withdrawal in writing to the president at any time before his election is published. In such case the president shall declare the candidate who has obtained the next highest number of votes to have been elected. No candidate who has submitted his withdrawal may subsequently stand it.

35. If any question arises as to the interpretation of these rules, otherwise than in connection with an election inquiry, the president may refer the question to the Local Government whose decision shall be final.

36. If there is no president or where the president is himself a candidate for election, his functions under these rules shall be discharged by the vice-president; if there is no vice-president or where the vice-president is also a candidate, the board shall appoint a member—who does not propose to stand as a candidate in the election or question—to discharge the functions of the president under these rules.

37. Notwithstanding anything contained in these rules the Local Government may for any cause direct the Collector or any other person to exercise the functions of the president under clause 31.
